

# How Do We Keep the Lord's Supper Meaningful?

## A Reflection

There is nothing magic about the Lord's Supper. The eating and drinking in themselves won't save us. They won't draw us closer to God. They can become dry routine like anything else. How can we keep them meaningful?

- The Lord's Supper is a remembrance. Remember. Remember what He did, and remember He did it for you. Remember how dear was the price.
- The Lord's Supper is a celebration. Come joyfully! Rejoice in what He has done!
- The Lord's Supper is a feast. Your Banquet Host has spread a rich table of life and love for His people. Come and partake!
- The Lord's Supper is a means of grace. Realize how unworthy you are. Come humbly. Come seeking. Come with thanksgiving.
- The Lord's Supper is a foretaste, an anticipation. Look ahead to what it will be to sit down with Christ and all His people at the marriage supper of the Lamb.
- The Lord's Supper is for all God's people. Come with them, as a member of His beloved family. Be conscious of the togetherness. Enjoy His grace with His other children.
