

The Star

God made the stars to bring light to the darkness.
To us, their physical light may seem small.
But the enlightenment they bring is beyond expressing.
These distant, burning suns
 eloquently,
 constantly
remind us of a God who is
 limitless,
 loving,
 changeless, and
 magnificent,
beyond our imagination.

So when His Son came to earth, our Creator God prepared a
 special star for this
 special revelation of Himself.
That star silently announced
that our Magnificent God was now
 living among us, and
 we could know Him
 face-to-face.
The star began to gather all nations to worship
 their King of Kings and
 Lord of Lords.

Now this Christ is Himself our
 Bright Morning Star.
He Himself is God's special revelation of His
 faithfulness and
 love.
He is the star that rises in the east
 just before sunrise,
 when the night seems blackest,
announcing that
 our long wait is almost over, and
 a new, eternal day is about to dawn.

Praise to You, Bright Morning Star!
O come to us, Lord Jesus!
